### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a method for driving a solid state image sensor, wherein the solid state image sensor includes a plurality of transfer electrodes arranged on the semiconductor substrate each intersecting the plurality of channel regions, the driving method comprising the steps of: storing information charges; transferring the stored information charges; deactivating the plurality of transfer electrodes; discharging, after said deactivating operation, the information charges in the channel regions toward the semiconductor substrate by keeping the plurality of transfer electrodes deactivated and increasing the potential at the semiconductor substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
